Quotes of the Issue:

6A CLASS TEACHERS

"The best is always yet to come."

6B CLASS TEACHERS

"Every mile is tough, every mile is earned."

6C CLASS TEACHERS

"Learning does not simply end in school; it is lifelong."

Dear 6A Boys and Girls,

Let us take this opportunity to tell you how precious it has been for us to be your class teachers in the past three years. With your vitality and enthusiasm, we have grown into a warm and united community.

After days and months of counting down, you have finally come to the most challenging stage of your journey – the DSE.

We know that many of you must be very stressed when you are preparing for it, especially given so many uncertainties during the pandemic. Yet remember that “The best is always yet to come”. Although there are several suspensions and lots of changes to your studies, we still believe that you can overcome these challenges. Ultimately, do not look down on yourself! Whenever you feel stressed and want to give up, look forward to the happy days after your DSE exams – there will be no more tests, exams and ISO lessons and you can look at the bright futures ahead and really enjoy life. For those who work hard now, you will reap the fruits of hard work and move on to pursue your dreams. In the end, try your very best and have no regrets! You have all grown up a lot in these three years and with your great sense of maturity, we are sure that you understand the importance of doing the right thing at the right time. Good luck and work hard for this milestone in your life.

相信你們在新型肺炎的影響下都有不少對未來充滿困惑的時候，但我們都相信雨過天晴，希望你們都能活在當下，要緊記「機會是留給有準備的人」，盡你所能考好文憑試。日後不論是升學還是工作，踏進的新地方，接觸新的人事，或許未必像在學校裡的般容易相處、配合，甚至將會有更多的價值觀、處事手法不同的衝擊，但願你們能夠堅守心中的信念，帶著勇氣追尋自己的理想，善用潛能，闖出自己一片天，無悔青春！

Dear S.6B graduates,

Life is a journey. You have finished one stage of your journey and you are heading to another. There were ups and downs, sweet and hard moments. I am glad that I could appear in your journey, shared some of your stories, feelings, and thoughts. A lot more is coming. Explore them. Never forget, “attitude determines altitude”. Wish you a wonderful journey ahead!

至中六考生們，

今年的確是難捱的一年，在停課、疫情、社會運動的影響下進行人生中一個最重要的考試。相信所有同學全力以赴溫習，面對著人生新階段，無論考試成績如何，不要以自己的成績定段個人未來的成就。機會只會留給有準備的人，記住充實自己，尋找屬於自己的路。

There are around 50,000 secondary school graduates every year in Hong Kong. But YOU ARE SPECIAL!!! You have been on online learning mode for almost half of your learning time in senior forms. This kind of learning is not easy, but this experience must be special and unique. I believe that this experience will be one of the topics that you can share with your friends, or even sons and daughters, many years later.

Life is like a box of chocolates. You never know what you're going to get. It is not guaranteed to be happy all the time, but it must be a unique process that you can learn a lot, get a lot and feel a lot from.

There is a popular saying among marathoners that "every mile is tough, every mile is earned." Hope you enjoy your life as well as your school learning no matter what they bring you.

MS LAU

CLASS TEACHER OF 6C

I've known many of you since you were 12 years old, and it has been amazing to watch each of you grow. The years have come and gone by so quickly and you all have become young adults.

You have laughed, cried, and learned alongside each other for six years. You have studied together, celebrated Christmas, and enjoyed school picnics. We have shared many wonderful memories and

had fun at school. You have given your classmates friendly smiles, helping hands and care. Not all of our days were easy, but most of our days were filled with fun learning, excitement and happiness.

Fast forward 6 years, and I know that many of these memories will have faded with the passage of time. Some of these years will perhaps fade from my memory as well, but I hope that whenever we meet again, you still will greet me with that friendly smile and remember that I had once been your teacher.

Every teacher would like his/her students to be able to achieve their dreams, lift up their heads and proudly tell others that teachers have changed their life. Today I hope that my students know how to appreciate and understand individual differences as well as how to care for and serve others. Learning does not simply end in school; it is lifelong. The world outside is full of challenges but also full of opportunities. Take what you have learned in school and let it grow and bear fruits in the future. Finally, I am excited to see where you go next.

MS PRATIVA CLASS TEACHER OF 6C

The end of Form 6 is both exciting and nerve-racking. On one hand, you may rejoice that you no longer have to study the subjects you dislike but on the other hand, you have to make important decisions that will impact the trajectory of your life in the next 5 years. Therefore, I hope you think very deeply and carefully before you make these important academic decisions.

I only wish that each of you can find your passion and start your journey after form 6; be it a job, an associate degree or tertiary programs in HK or overseas, I hope you find a direction and follow it. I hope you work hard and never give up on your goals, no matter how difficult things may seem. I hope that you remember all the good times you have had in this school with your friends and teachers. I hope you have learnt some important lessons which you can carry with you for the rest of your life.

I'm very glad to have had the opportunity to be your class teacher for the last 2 years. Together, we have had many ups and downs, but it has been quite a memorable journey for both of us. I hope you will remember and cherish all the good moments. I wish you all the very best for your future.
